The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4,5,9,10,12 rejected under 35 U.S.C. 102(b) as being anticipated by DeGroot 4,162,731. Note side panels 12, flexible shelf panels 18 and shelf poles 22,24 offset vertically and horizontally from each other.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2,3,6,7,8,11,13 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeGroot '731 in view of Bailey 4,960,211. DeGroot '731 teaches the shelf absent specific fabric construction. Bailey teaches fabric shelves for the purpose of greater flexibility. To therefore provide DeGroot with fabric shelves as taught by Bailey for the purpose of flexibility would have been obvious for one having ordinary skill in the art at the time of the invention. The material...whether canvas or leather..., whether the panels are wider at the bottom or top, and shelf height is considered to have been a matter of choice well within the ambit for one having ordinary skill in the art at the time of the invention.

Art Unit: 3634

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar flexible shelves are illustrated by Hall 2,108,122 (wider panels at the bottom) Estler 873,664 and Erickson et al. 4, 270,816.
